

DO THI HUE

Applying for an IT internship

CAREER OBJECTIVE

I am currently a final-year student majoring in Information Technology at the Vietnam Maritime University. I am aware that your company is currently seeking students within this field. With the education and practical experience I have gained throughout my studies, I am enthusiastic about applying for a position at your company, both as an intern and potentially as a full-time employee upon graduation.

I have received comprehensive training in various aspects of information technology, including programming languages, software development methodologies, and system administration. Additionally, I have actively sought out opportunities to apply this knowledge in real-world scenarios through personal projects.

I am eager to contribute my skills and continue learning within a professional environment. I believe that my education, coupled with my practical experiences, align well with the requirements and values of your company.
